EDUCATION

University of Liberal Arts Bangladesh

Bachelor of Science in Computer Science and Engineering

Dhaka, Bangladesh

2021 – 2025

Mymensingh Polytechnic Institute

Diploma in Engineering (Electronics Technology)

Mymensingh, Bangladesh

2015 – 2019

EXPERIENCE

AI and Automation Engineer

SyncMetrics

Oct. 2025 – Present

Dhaka, Bangladesh

- Developed LLM applications integrating APIs, databases, and agent orchestration systems at scale.
- Built AI agents and RAG pipelines using LangChain, LangGraph, and vector databases for real-time applications.
- Automated end-to-end workflows, reducing operational workload and processing time by 75–99%.

AI Engineer

EVOMED Technology

Apr. 2025 – Sep. 2025

Dhaka, Bangladesh

- Processed multimodal datasets, performed EDA and annotation, and applied SHAP/Grad-CAM for model interpretability.
- Fine-tuned CNNs, Transformers, and LLMs; built hybrid architectures for production-grade AI applications.
- Optimized and quantized AI models, enabling high compression and low-latency inference on edge devices.

PROJECTS

CLF Automation Suite | *Python, FastAPI, React, PostgreSQL, Docker, AWS, n8n*

Feb. 2026 – Aug. 2026

- Built a unified SSO portal with RBAC and Traefik ForwardAuth protecting 6 integrated legal automation apps on AWS.
- Automated PBX call logging, VA PDF form-filling (OpenAI Vision AI), mail intake, e-signature filing, and task reporting.
- Deployed self-hosted PostgreSQL, n8n, and Traefik with daily SSE-AES256 S3 backups and Docker self-healing containers.

SCCM: Skin Cancer Classification | *Python, PyTorch, Transfer Learning, Grad-CAM++*

2025

- Developed an interpretable enhanced transfer learning model for skin cancer classification, published in BioMedInformatics (2025).
- Applied Grad-CAM++ to visualize and validate model decision boundaries across skin lesion classes.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, HTML/CSS

Frameworks: React, FastAPI, Node.js, Flask, Next.js, LangChain, LangGraph

Tools & Databases: Git, Docker, AWS (EC2, S3), Traefik, PostgreSQL (pgvector), MongoDB, Redis

AI & Integrations: OpenAI API, RAG Pipelines, Vector DBs (Pinecone, Qdrant), TTS/STT, MCP Tooling, n8n

PUBLICATIONS

SCCM: Interpretable Enhanced Transfer Learning for Skin Cancer Classification

BioMedInformatics, 2025

TinySenseNet: Lightweight sEMG-IMU Fusion Network Using TinyML for Mechanical Arm Control

IEEE COMPAS 2025

Real-Time Brain Tumor Localization and Classification Using YOLOv11 and MONAI MedNeXt

IEEE COMPAS 2025

Scalable Hand Gesture Recognition from sEMG Signals Using a Hybrid Deep Learning Model

IEEE ICEEIE 2025 (Best Paper Award)

HONORS & CERTIFICATIONS

Best Paper Award — IEEE ICEEIE 2025, IEEE Indonesia Section

2025

Digital Security Training (ToT) — Google & Asia Centre

2025

Big Data Fundamentals with PySpark — DataCamp

2025
